

Myself and Aimee are very excited to be teaching my Seedpods class for the first time here at Madeline Island School of the Arts. You may choose to use my drawings as a starting point for your quilt or choose to create your own seedpod designs using a similar color palette to mine or create your own. You may also only choose to do a small quilt using one seed pod design. Make adjustments to the quantity and colors of fabrics depending on your preference. I will be bringing a large quantity of ecodyed and plant dyed fabrics and wools from our dye shop for purchase.

I am also offering a package of drawings that will be available for purchase for \$25. Please respond to the email julia@suespargo.com if you would like to purchase the drawings. I am planning on only bring copies for those who have preordered.
